RE: State ML 43922, SM/049/014

The above referenced building stone lease was originally under DOE/049/001. The D.O.E. was retired after the lease expired. Jerry Mansfield of State Lands and I visited the site in the spring of 1988. A short access road had been built along an ephemeral drainage into the lease area. Loose stone may have been removed from the side of a hill, but there was no noticeable surface disturbance.

Mr. Fred Gagon has now taken out the lease and plans to remove loose stone with bars and picks. It is doubtful if any significant disturbance will occur.
